

Jersey Overseas Aid Commission supported Drought relief project in Pakistan ActionAid UK - November 2014

1. ActionAid Partner staff holding consultations with women to assess their most urgent needs and also to identify most vulnerable households

2. Women giving thumb impressions to register for the relief items distribution

- Information board listing the items and their amounts that form part of all relief packages and a physical example of the relief package displayed at the distribution centre, to ensure transparency to all beneficiaries

- Medical camp organised by ActionAid in Tharparker

The emergency response has reached almost 4,000 people in Umerkot and almost 28,000 people in Chachro in the Thar desert (17,000 benefitting from livestock vaccination). Communities have greatly appreciated the timely support and send their heartfelt thanks to the Jersey Overseas Aid Commission for their generosity.
